

LCIF Matching Grant Application

Lions Clubs International
FOUNDATION

**Joint Social Service Activities in District 300 B2 of 2020-2021:
Donation of a mobile health care vehicle for care of the elderly and diabetes
citizens in rural areas of New Taipei City**

A Simulated Vehicle

**The CABINET OFFICE of DISTRICT 300 B2, LIONS CLUBS
INTERNATIONAL**

3F, 105, Sicheng Rd., Panchiao Dist., New Taipei City, Taiwan

Dear Chairperson Yngvadottir,

**I am honored to write this letter to you because I want to apply
for an LCIF grant. For many years, Lions in MD 300 B2 of**

International Lions Club has been engaging in organizing health care activities, and has been recognized by all walks of life in New Taipei City in this area. In order to protect the health of the elderly citizens, to help the health care needs and long-term care services of elderly people in remote rural areas with inadequate medical resources. After being elected as the 300 B2 district Governor, DG Liang Jinsheng in this district has formulated a plan to promote mobile care for the elderly and diabetes citizens in remote communities of New Taipei City, which includes a mobile health care vehicle for the elderly and diabetes citizens in New Taipei City. The plan of pick-up and drop-off medical services is listed as the annual key work plan for large social service activities that will be implemented jointly by Lions clubs of this district. After several community surveys and the practical needs of the Joy Community Care Association, local basic preventive care services will be provided for rural areas with insufficient medical resources, and various care measures will be connected according to their needs to offer continuous services to the disabled elderly people and patients with diabetes. Long-term care services will allow elderly people to obtain appropriate care services at all stages of life, thereby reducing the medical burden. Therefore, it was decided that MD 300 B2 area of International Lions Club would serve with the community and humanitarian spirit, and donate a mobile health care vehicle to the Joy Community Care Association for the elderly and diabetes citizens in New Taipei City to offer preventive medical services and continuous long-term care services. This proposal was unanimously approved at the Cabinet Meeting held on August 26, 2020.

This community mobile health care vehicle with basic test and medical equipment for the elderly and citizens with diabetes in New Taipei City will cost NT\$6, 628, 490 (US \$220, 950). We want to apply for LCIF financial support of US \$ 100,000. The other part, US \$ 120,950 (ie NT \$ 3,628,490), will be donated by local lions and the public.

This mobile health care vehicle for the elderly citizens and citizens with diabetes will be equipped with medical examination and care

equipment and will cost NT\$ 6,628,490(US \$220,950). We plan to apply for the financial support of US\$ 100,000 from LCIF.

The mobile health care vehicle can serve the elderly and citizens with diabetes in the remote areas. They can get simple medical treatment and care to improve their quality of life. This vehicle can help increase the proximity of medical care services for the elderly and patients with diabetes in rural areas, reduce the burden on home caregivers, and avoid the pain of traveling to and from hospitals and transportation expenses. At the same time, it reduces the cost of money, saves time and the burden on the family, so that they can benefit from the community service offered by Clubs of MD 300 Taiwan B2 of Lions Clubs International that will participate in such meaningful social service activities.

In addition, we will also expand the promotion of LCIF, telling the public that LCIF funds our social service activities, and mark the International Lion Club and the LCIF logos on the mobile health care vehicle at prominent locations on the outside of the vehicle.

District Governor Liang Jinsheng, has formulated a plan to promote this project. I enclose herewith the grant application, the documents and plans passed by the Cabinet for the proposal to LCIF as shown in Appendixes 1~3.

Thanks.

**District Governor Liang Jinsheng
LCI MD 300 B2, 2020-2021**

A. PROJECT DESCRIPTION

I. Date of submission: October 4, 2020

II. The project name: Donation of a mobile health care vehicle for care of the elderly and diabetes citizens in rural areas of New Taipei City.

**III. The amount of funding from the support of LCIF: US \$
100,000**

IV. The number of people who will directly benefit from the project: There will be 400 tour services and more than 4,000 persons served.

V. Problem description and project objectives:

a. Special problems to be solved

In response to the advent of an aging society, the need for elderly care has increased relatively. With the promotion of the Taiwan Healthy Community Flagship Program, community building and community proactive participation are the basic spirits, providing community care bases, providing local preventive care services, and linking various care measures to build continuous long-term care services for the elderly and citizens with diabetes. **This vehicle can help increase the proximity of medical care services for the elderly and patients with diabetes in rural areas, reduce the burden on home caregivers, and avoid the pain of traveling to and from hospitals and transportation expenses. At the same time, it reduces the cost of money, saves time and the burden on the family**

In view of this, District Governor Jinsheng Liang of District 300 B2 plans to take care of the elderly and citizens with diabetes in rural areas with the policy vision of "When we are old together" and the goal of "full-time full-service care", integrating health promotion with social participation and long-term care services in the hope that the elderly and citizens with diabetes in rural areas can receive appropriate care services at all stages of their later life. District Governor Jinsheng Liang of District 300 B2 and all Lions will make concerted efforts to reach this goal by March 31, 2021 so that there will be one touring vehicle in the

area of District 300 B2, which will make the people of this district feel the care and love of this MD 300 B2 district.

b. Detailed reasons and explanations of this project

The service bases in this district are located in 17 administrative regions. Due to the vast size of New Taipei City and the lack of MRT stations in some areas, mobility of the elderly is often restricted by inconvenient transportation, reducing their willingness to go out for activities or social participation. There are only community buses available for rides in most areas. Due to the lack of community bus pick-up times and long interval time, the transportation is quite inconvenient, resulting in the elderly citizens living in remote areas less willing to go out and having no nearby service points to participate in activities, and resulting in resources unable to reach remote areas, which means the urgent need for taking care of the elderly and citizens with diabetes in remote areas.

c. Statement of the purpose and objectives of this project:

By donating the mobile health care vehicle to the Joy Community Care Association for providing the elderly citizens and people with diabetes in remote areas in New Taipei City with medical care, the spirit of Lionism is demonstrated. Lions in this district work together, build consensus, demonstrate excellence, and inspire the sense of honor of the Lions so that the community's people have a deeper understanding of the Lions Clubs' enthusiastic service, care and love, and enhance the image of Lions in social welfare. It is expected to achieve the goal of membership growth. Therefore, caregivers need to be helped to reduce care load and pressure, which will show the enthusiasm of the MD 300 B2 district to serve the community, and achieve the purpose of Lions' "we serve" to benefit the society.

VI. Project strategy

A. Detailed plan of the project:

(1) Purchase a mobile health care vehicle to the Joy Community Care Association in New Taipei City

The project plans to purchase a mobile health care vehicle for the Joy Community Care Association in New Taipei City, using the vehicle to provide mobile medical care services for the elderly citizens and people with diabetes in rural areas. As indicated in Appendix V, the equipment in the vehicle includes a multi-function tester, an indirect ophthalmoscope, a pneumatic tonometer, a color ultrasonic tester, LED color caption machines and signage, LCD projectors, notebook computers, microcomputer multimedia players and karaoke players and amplifiers, speakers and wireless microphone sets, which will greatly improve rural caregivers' medical care and health promotion activities for the elderly citizens and people with diabetes. The vehicle is designed for mobile health diagnosis, and the medical staff will personally go to the rural area to provide the best professional medical and nursing services.

(2) Service planning

1. Service areas:

Remote areas and areas lacking medical resources in areas served by Lions of 300 B2 who will provide services on weekdays. Rural areas include Shenkeng, Shiding, Ruifang, Xizhi, Pinglin, Pingxi, Shuangxi, and Gongliao Districts. Services will be provided to the other areas according to the actual needs of the people.

2. Clients:

The elderly citizens and people with diabetes in the MD 300 B2 District.

3. Service method:

(1) Provide fixed-point service with the "Mobile health care Vehicle" for the elderly citizens and people with diabetes. The scheduled service time periods of the tour vehicle are as follows:

Service Day	Community Square	Time
Monday	Shenkeng	9:00 am ~ 11:30 am

	Shiding	1:00 pm ~ 3:30 pm
Tuesday	Pinglin	9:00 am ~ 11:30 am
	Pingxi	1:00 pm ~ 3:30 pm
Wednesday	Shuangxi	9:00 am ~ 11:30 am
	Gongliao	1:00 pm ~ 3:30 pm
Thursday	Xizhi	9:00 am ~ 11:30 am
	Ruifang	1:00 pm ~ 3:30 pm
Friday	Flexible	9:00 am ~ 11:30 am
Friday	Flexible	1:00 pm ~ 3:30 pm

Note: 1. It is estimated that at least 35 trips per month will be dispatched.

2. The services in other districts will be provided according to the flexible tour service time.

Note: It is estimated that the service vehicle can provide up to 400 touring care point services per year, which lead to services for 4000 persons per year. There will be 400 education promotion activities in the 300 B2 District (currently 17 districts in New Taipei City), introducing more social resources into this district.

Statistics of Services and Participating Lions

Rural Districts in New Taipei City	Touring Care Services per District	Education Promotion Activities Per District	Services and Activities	Lions Serving
8	35	35	70	280 trips
Total	280	280	560	560 Lions

(3) The Schedule

1. First of all, a total of eight districts of New Taipei City (Shenkeng, Shiding, Pinglin, Pingxi, Shuangxi, Gongliao, Xizhi, Ruifang Districts) in the lack of medical resources or in remote areas will be given priority reservations for the tour service from Monday to

Thursday. Other communities will be provided with flexible appointment support services on Friday according to the available tour service hours.

2. The designated service hours will be adopted by the respective districts, and two Lions will be assigned to serve together to implement community service.

4. Service items:

Use the mobile vehicle to offer tour services, provide medical consultation, and conduct education advocacy and service consultation for the elderly citizens and people with diabetes, breaking through venue restrictions.

(3) Service division:

1. Lions Clubs of MD 300 B2 District

Donate a mobile health care vehicle and examination equipment to the Joy Community Care Association in New Taipei City, and sponsor health activities.

2. Joy Community Care Association

The Joy Community Care Association sponsors the budget for the doctors' on-site fees, drivers' fees and related consumables.

3. Funding requirements and equipment specifications:

Funding requirements for this project:

Items	Quantity	Unit Price	Amount	Explanation	Source
Fee for the mobile vehicle and equipment	1	NT\$ 6,628,490	NT\$ 6,628,490	The vehicle includes health and medical equipment as indicated in the invoice attached to this application.	300 B2 Lions Clubs and LCIF
Total			NT\$ 6,628,490		

C. The physical and content description of the facilities for permanent buildings: This project is not a permanent building.

D. The schedule for implementation and completion of the project:
For details, please refer to Attachment 3 Action Plan Worksheet.

VII. This project is to donate the vehicle and medical equipment to the Joy Community Care Association. After the donation, the Joy Community Care Association is responsible for operation, maintenance and management expenses in the years to come.

VIII. Geographical regions and communities that will benefit from services of this project:

Mainly the areas in the 17 districts of New Taipei City, which have insufficient medical and long-term care resources in the MD 300 B2 District, including Banqiao, Zhonghe, Yonghe, Xindian, Tucheng, Shulin, Yingge, Three Gorges, Ruifang, Xizhi, Shenkeng, Shiding, Pinglin, Pingxi, Shuangxi, Gongliao, and

Wulai Disctricts.

IX. The institutes that participate in this project:

1. The company that sells the mobile health care vehicle and equipment for health activities in the vehicle:

Company Name: Fukang Enterprise Co., Ltd.

Phone: 02-2269-4666

Fax: 02-2269-4668

The attachments include the vehicle model specifications, types, accessories, in-vehicle health activity equipment and the invoice of the mobile health care vehicle and the medical equipment.

X. The contact information of the main coordinator of this project:

Name: District Governor's Office of 300 B2

Address: 3rd Floor, 105, Xicheng Road, Banqiao District, New Taipei
City, Taiwan

Phone: 02-26861000 ~ 3

Fax: 02-26861009

Email: chulien.ho@msa.hinet.net

Attachment description:

- Attachment 1: Minutes of the Cabinet Meeting in the District
- Attachment 2: Implementation Plan of Joint Social Service in the District
- Attachment 3: Work Plan Worksheet
- Attachment 4: Remote areas within the MD 300 B2 District
- Attachment 5: Mobile health care vehicle body and modification
(Including built-in equipment)

B. LIONS IDENTIFICATION AND INVOLVEMENT

1. Explain how Lions clubs members participate in this program, and how Lions will continue to participate in the project after the LCIF grant ends.

This project is sponsored by the district governor's office in District 300 B2, and the Lions clubs in this district participate in the project. Enthusiastic Lions make the donation voluntarily. After the LCIF grant ends, we will actively continue to follow up, explore, participate in and promote social services in response to the needs of the community.

Statistics of Services, Activities and Participating Lions

Rural Districts in New Taipei City	Touring Care Services per District	Education Promotion Activities Per District	Services and Activities	Lions Serving
8	35	35	70	280 trips
Total	280	280	560	560 Lions

2. How to make this project clearly recognized as a Lions funded program.

The logos of the Lions Clubs International, LCIF and MD 300 B2 will be clearly marked on both sides of the donated mobile health care vehicle for serving the elderly citizens and people with diabetes and will be clearly visible at a glance.

3. Explain how to let the public know that this project is a project funded by LCIF. Any publicity and media materials should clearly show that this project is co-sponsored by Lions clubs members and LCIF.

Before the donation ceremony, a press release will be issued to invite journalists from print media, electronic media, newspapers, and television stations to cover the news and publicize it to the public to let the public know that this meaningful humanitarian service project is funded by LCIF that supports this project implemented by all Lions in District MD 300 B2 so that they can achieve their goals and complete this social service activity.

A. PROJECT BUDGET

1. Use the form below to list the budget of the entire project item by item.
2. Explain the currency system used in this program and the exchange rate of US dollars

US \$ 1 = NT \$ 30.

3. List the sources of funds for this project item by item.

2241 Lions of all the 55 clubs in District 300 B2.

4. Including funds from various sources and the current status of the funds

Car dealers can receive the promised donation before handing over the vehicle, and the balance will be paid after the LCIF funds are received.

5. Local equivalent fundraising must be a cash donation.

Local cash donation.

6. LCIF grants should be listed as one of the funding sources: Yes.

7. The maximum funding amount for LCIF's matching funding is:

US \$ 100,000.

Project Budget

Income		Expenses	
Source	Amount	Item	Amount
LCIF grant	US \$ 100,000	Purchasing the mobile health care vehicle and medical equipment.	US \$ 100,000
District 300B2	US \$ 140,167	Purchasing the mobile health care vehicle and medical equipment.	US \$ 120,950
Total	US \$ 240,167	Total	US \$ 220,950

US\$1=NT\$30. US \$ 220,950 equals NT \$ 6, 628, 490

Note: The total cost of this project is equal to the total capital income.

D. APPLICATION ENDORSEMENT

DISTRICT GOVERNOR ENDORSEMENT

This to certify that I have reviewed the LCIF Matching Grant Criteria and Grant Application. To the best of my knowledge the information submitted is accurate and the need exists as indicated. I endorse this proposal and will do everything within my power as administrator of any funds granted to assure their proper and efficient use, proper accounting and regular reporting to Lions Clubs International Foundation.

Attachment 2:

The Joint Social Service Implementation Plan of Lions Clubs

International 300 B2 District 2020–2021: The Donation of a Mobile health care Vehicle to the Joy Community Care Association for the Elderly Citizens and People with Diabetes in New Taipei City.

1. Purpose of the project:

The spirit of Lions can be demonstrated through the donation of the mobile health care vehicle to the Joy Community Care Association for the Elderly Citizens and People with Diabetes in New Taipei City. Lions in this district work together to enhance consensus, demonstrate excellence, and inspire a sense of honor. This project can allow Lions of this district to offer their service enthusiastically to the community and to care for the society, which is sure to make the community have a deeper understanding of Lions Clubs, enhance the image of Lions' social welfare, and exert influence. We also hope to achieve the goal of membership growth. It is also hoped that this project can enable citizens in need to get services near their community and slow down the deterioration of their diseases. This project can help the elderly in rural areas receive care, improve the quality of life and reduce the burden of family caregivers, and avoid the pain of traveling to and from hospitals and transportation expenses, which shows the enthusiasm of MD 300 B2 district to serve their community. The enthusiasm of the Lions achieves the purpose of Lions Clubs' motto "We Serve" and benefits their community.

2. The basis of the project:

The Work Plan Implementation of Lions Clubs International 300 B2 District 2020-2021

3. The content of the project:

1. Advisory: Lions Clubs International MD 300 Taiwan
2. Organizer: District Governor's Office of MD 300 Taiwan B2
3. Implementer: Joint Social Service Committee, Diabetes Prevention Committee, and Health and Medical Committee of MD 300 B2 District, Lions Clubs International.
4. Co-organizer: Lions Clubs of LCI MD 300 Taiwan B2 District

5. Date of donation: March 26, 2021
6. The beneficiary organization: Joy Community Care Association

4. Summary of funding requirements:

1. Vehicle body construction and internal equipment
2. Funding for the donation ceremony and joint social service activities

5. Source of funds:

There will be two main sources of funds. The first source consists of free donation, which can be divided into individual donations from Lions, donations from clubs or groups, and donations from the public. The second source comes from Lions Clubs International Foundation.

6. Summary of the plan:

In order to solve the problems of the elderly and diabetes patients in the rural areas of New Taipei City, it is necessary for them to take a car or a bus to seek medical treatment in other urban areas. In view of this, District Governor Liang Jinsheng of District MD 300 B2, after contacting the Joy Community Care Association, decided to donate a mobile health care vehicle to the Association in New Taipei City for the care of the elderly and diabetes patients, which will become a mobile care and health activity clinic. Primary care medical equipment will be directly installed on the mobile health care vehicle to provide citizens with better medical care, which is sure to benefit the elderly citizens and citizens with diabetes. District Governor Liang Jinsheng of District MD 300 B2 and all Lions of this district will work together to achieve this goal by the end of March 2021, so that this mobile

care service vehicle can serve the elderly citizens and citizens with diabetes in rural areas of the 17 districts of New Taipei City, make New Taipei City citizens feel care and love from the Lions clubs of District MD 300 B2 for the citizens and therefore solve the needs of the community.

"Our service" is the main purpose of the Lions Clubs International. The clubs in this district usually implement the promotion of various social services. However, the project needs a large fund, which hinders each club's limited funding for community services in the year. The huge fund needed for this project is hard for each club to implement separately. Therefore, the district decided to concentrate the power of the clubs, gather consensus, concentrate resources, support each other, and expand social service activities. Therefore, this district planned to organize fundraising activities for Lions and members of the community in this district.

The scheduled funding amount is NT \$ 6,628,490. The district plans to apply to LCIF (Lions Clubs International Foundation) for a grant of NT \$ 3 million (US \$ 100,000), so the planned fundraising amount is NT \$ 3,628,490. Lions are welcome to donate enthusiastically and join in this grand event to serve the community, with a view to achieving the project goals.

If this plan is approved by the Lions Clubs International Foundation, the MD 300 B2 will actively promote this project and continue to do relevant fundraising work and award Lions contributors with prizes. It is also expected that the donation ceremony of this plan will be held by the end of March 2021.

VII. Reward Method:

1. Individuals who donate more than 5,000 New Taiwan Dollars to less than 10,000 New Taiwan Dollars will be awarded with a thank-you certificate.
2. For individuals who donate 10,000 New Taiwan Dollars or more and less than 20,000 New Taiwan Dollars will be awarded with a thank-you plaque.
3. Individuals who donate 20,000 New Taiwan Dollars or more will be awarded with a thank-you plaque and their names will be printed on the medical care tour vehicle.
4. Clubs or organizations who donate more than 50,000 New Taiwan Dollars or more will be awarded with a thank-you plaque and their names will be printed on the medical care tour vehicle.
